

## NRP 57 Satellite Symposium

### NRP 57 “Non-Ionising Radiation – Health and Environment”

A research programme of the Swiss National Science Foundation

**Organizer:** Swiss National Science Foundation, National Research Programmes

**Date:** Sunday June 14, 2009

**Venue:** Davos, Davos Congress Centre ([www.davos.ch](http://www.davos.ch))

**Registration:** Forthcoming

There is no registration fee

**Contact:** Dr. Marjory Hunt

Phone: +41 31 308 2379

e-mail: [mhunt@snf.ch](mailto:mhunt@snf.ch)

It is my pleasure to announce the NRP 57 satellite symposium on June 14, 2009 in Davos, Switzerland. At this full-day scientific event, all eleven project leaders will report on their most recent results related to dosimetry and exposure assessment, short term, medium and long-term exposure effects of non-ionising radiation assessed by laboratory and epidemiological studies, effects at the cellular level as well as risk perception and evaluation of NIS in the public. The symposium will be held in conjunction with the BioEM 2009, the Joint Meeting of The Bioelectromagnetics Society (BEMS) and the European Bioelectromagnetics Association (EBEA) taking place from June 15-19, 2009 at the Congress Centre in Davos ([www.bioem2009.org](http://www.bioem2009.org)). It will provide an outstanding opportunity to learn about the NRP 57 Programme and to discuss its significance and implications in an international framework.

Participation in the symposium will be free of charge and I would like to cordially invite scientists from various disciplines to attend this exciting meeting. Details regarding the registration procedure and the symposium programme will be forthcoming and soon available on this website.

I look forward to welcoming you in Davos!

Prof. em. Dr. Alexander Borbély  
President of the NRP 57 Steering Committee
